Actual Results: Explain data, achievement, or progress made toward intended outcomes(s)

As a result of my teaching the children have shown some growth in comprehension of oral language during homework time and activity time.

Reflecting on my plan...

The children were able to achieve the objective through writing activities, arts and craft activities and homework time.

In the spirit of continued professional growth...

I will continue to provide the children with different and effective practices to promote their oral comprehension skills. As an effective education, I will continue seeking outside resources to maintain children's interest in learning.
